

Horse Races, Baseball And Softball At Didsbury Fair

TO BOOST SUGAR RATION 3 OR 4 POUNDS FOR 1947

An increase of eight pounds per capita in the overall sugar ration for the remainder of this year was announced in the Commons last week by Finance Minister Abbott but at the same time he warned that there was no chance of de-rating sugar until some time in 1948.

Reviewing the sugar situation in a 1,000-word statement the minister said the proposed increase would take the form:

1. Three or four additional pounds will be made available to consumers through two additional coupons to be declared valid in August and one or more to be made valid in November. This will boost the individual ration to about 45 pounds for the year.

2. The industrial ration will be increased by 10 points-in each industrial category, bringing the basic industrial quota to 90 percent of 1941 usage. The increase will go forward as a supplementary quota during the latter half of July.

These two increases—one for individual consumers and one for industrial uses—will mean an increase of seven or eight pounds per capita in the overall ration, which includes supplies received in the form of refined sugar and cakes, candies, other confectioneries and soft drinks.

Mr. Abbott observed that a three-pound increase was granted consumers April 1 and that a similar boost was given effect June 9 through the de-rating of jams, jellies, marmalade and honey.

Of the possibility of suspending rationing altogether, he said: "Our conclusion is that it is in the general interest, and particularly in the interest of householders and small business, that sugar rationing should be retained in full force at least until the 1948 supply prospects are clear."

LONG YEARS AGO

July 5, 1907

D.B. Martin of Didsbury has sold a Chicago Aeromotor Windmill to the Townsite Co. at Three Hills, to supply the town with water.

Mack Ryckman has completed drilling the school well. They got 42 feet of water after drilling 69 feet.

Another eyecore is being moved off Osler street. The blacksmith shop formerly occupied by A. Lammle is being moved to make room for a more modern building.

The local teamsters working for the Town of Didsbury are out on strike for more money, and the town streets are being neglected.

J.A. Gilmore, our baker, and Miss M. Mueller were married last Wednesday by Rev. C.G. Kaatz.

E.L. Richardson, manager of the Calgary Fair, has announced a four day program this year, commencing on Tuesday, July 9th.

The Town of Didsbury contemplates borrowing \$15,000 to provide for the building of a town hall and a fire hall, and to purchase agricultural grounds and water tanks. Money is also needed for local improvements, fire fighting equipment and for municipal telephones.

J.V. Berscht was advertising men's suits for \$5.50, patent leather shoes for \$3.40, work boots for \$1.25, work shirts for 55¢, derby hats for \$2.00, and cowboy boots for \$4.00.

ATLAS LUMBER COMPANY STARTS PLANING LUMBER

Planing of lumber at the Atlas lumber pile near the nuisance grounds in the north-east part of town commenced last Friday afternoon and will continue until more than a million feet are put through the planer. This lumber is part of the four million feet purchased by Atlas Lumber Company this past winter, and comes from saw mills west of Didsbury.

The lumber is being planed by Dave Burke of Sundre, who has purchased one of the new General Motors industrial power plants to operate the planer, and from all reports this power unit is giving exceptionally good results with an abundance of power to handle all operations.

The General Motors industrial power plant was purchased from Efford Motors, Didsbury, this firm having the agency in Alberta for all points between Rocky Mountain House and Macleod.

ED WATKIN AND R. ADY TIE FOR HONORS IN FIRST GUN CLUB SHOOT

Members of the Didsbury Gun Club held the first trap shoot of the season last Tuesday evening with only ten gun artists taking part. Russell Ady and Ed Watkin were high scorers for the shoot, each breaking 19 out of 25 birds.

Following is the results out of 25 targets:

R. Ady 19, E. Watkin 19, E. Rouleau 17, T. Pearson 16, S. Armstrong 15, Ken McCoy 12, L. Shells 12, A. Sherrick 11, Walt McCoy 11 and W.J. McCoy 5.

Regular shoots will be held each Tuesday evening at the range south east of town, and if day pigeon and shells hold out the Didsbury Gun Club should have a successful season.

Among those from Didsbury attending the stampede and Palomino horse show at Nanton last week were Mr. and Mrs. Irvin Klein, Mr. and Mrs. W. Coates, Hazel Viney, Slim Goodhand and J. Hughes. In the Palomino horse show Irvin Klein of Didsbury won third prize in the class of two-year olds, filly or gelding; first prize for mare or gelding ridden by a man, and in the class of mare or gelding ridden by a lady, Ruth Jones of Calgary was first, riding Mr. Klein's horse.

START WORK ON NEW BUILDING FOR LUTHERAN CHURCH

At 10:45 a.m. on Thursday, June 26, 1947, the first ground was broken for the Redeemer Lutheran Church, corner of Shantz and Berlin Streets in Didsbury, Alberta. Mr. John Folkman, president of Redeemer Congregation turned the first spadeful of sod, as Rev. E.B. Fox, Pastor of the congregation, read the 123 Psalm and dedicated the ground to the use of God.

Work on the excavation of the basement was begun immediately thereafter. The new church will be of frame construction, with a stucco finish. The overall size will be 30'x70', with a lower 16'x16' on the northwest corner, set back about six feet from the corner. The nave of the church will be 29'x60' and five seating accommodation for 150 people. An additional seating of 50 will be provided for in the gallery. The church will be 18'x18' with a sanctuary on the north side and stairways on the south side. The tower will rise 60' into the air, and provisions are being made for the installation of a bell.

Redeemer congregation is an amalgamation of St. John's congregation of Didsbury and St. Paul's congregation of Westcott. The amalgamation was effected in 1945. Redeemer congregation has about 200 souls with 33 voting members. It also enjoys a large Sunday School of some 45 children, an active Ladies' Aid and Waltham League organization for the young people. The congregation is affiliated with the Evangelical Lutheran Synod of Missouri, which this year celebrates its Centennial Anniversary.

The estimated cost of the new church will be in the neighborhood of \$18,000.

DIDSBURY HOSPITAL BIRTHS
Born at the Didsbury hospital on Tuesday, June 26th to Mr. and Mrs. Norman Bellamy of Cremona, twin girls.

NEW BEAUTY PARLOR OPENS IN DIDSBURY

Miss Betty Wright of Calgary has opened up a beauty parlor in Didsbury and is located above Haliday's store.

The new shop will be called "Betty's Beauty Salon," and is now open for business.

Didsbury Lions Club Offers A Free Trip To Victoria

MR. AND MRS. FLANAGAN HONORED AT GATHERING

A no hostess party was held at the home of Mr. and Mrs. Art Reiber on Wednesday evening, June 25 in honor of Mr. and Mrs. Chris Flanagan, who are leaving in August to make their home in Red Deer.

The evening was spent in playing bridge, and the guests of honor were presented with a Presto cooker as a parting gift from those present.

LEGION MEMBERS HEAR REPORT ON RINKS

The regular meeting of the Didsbury Branch of the Canadian Legion was held in the Lions hall on Thursday, June 26th. The meeting started on time so that the social evening could be commenced at 10 p.m.

Dr. Epp gave a very interesting report on the provincial convention recently held in Edmonton.

It was decided to enter a memorial float in the parade at the Lions Club Jubilee on August 7th. Padre D. Whyte Smith and Dr. Epp were appointed a committee to make arrangements for the memorial service to be held at the Cenotaph.

One application for membership was received. A letter of appreciation was sent to Mr. Art Reiber for his services in connection with the enrolment of Red Cross blood donors.

Comrade W. Payne gave a progress report on the community center. The committee visited rinks in other towns to get an idea of the most useful building for Didsbury. Wetaskiwin uses their rink the year round, as does Trochu. These rinks are used for basketball, by the Agricultural Society for Calf Club fairs and sales, as a community hall, and the waiting room is used for committee meetings. In fact, when the local committee found the many ways to which a covered skating rink could be used they were more enthusiastic than ever over the project in Didsbury.

After the business was completed a social hour was enjoyed and the Ladies Auxiliary provided a delicious luncheon.

The entertainment at the next meeting will be provided by the ladies.

12,000 REGISTER AS RED CROSS BLOOD DONORS DURING ENROLMENT WEEK

Nearly 12,000 people in Alberta have registered their names in support of the Canadian Red Cross Society's new free Blood Transfusion Service soon to be in operation throughout the province. Altogether 20,000 voluntary donors willing to donate blood twice a year will be required by the Blood Transfusion Service to supply free whole blood and plasma to all Alberta hospitals.

When this new service is organized any patient requiring a transfusion, due to accident or other medical reasons, will receive it entirely free of charge.

Twenty-four branches of the Canadian Red Cross in Alberta are busy canvassing their districts. Due to poor weather conditions and the extent of territory some branches have not yet completed their canvases.

Anyone between the ages of 18 and 65 and enjoying normal health who has not yet enrolled is urged to request to contact their nearest Red Cross branch.

At a later date Mobile Clinics will move out of Edmonton and Calgary visiting districts throughout the province. Voluntary blood donors will be given two or three weeks' notice prior to the visit of the clinic to their community.

Mr. and Mrs. Irvin Klein, Mr. and Mrs. Harvey Gillie, Mr. and Mrs. Dave Edwards and Mr. and Mrs. Ivan Weber left last Saturday for Nelson, B.C., where the men have entered a rink in the Nelson summer curling bonspiel.

Ladies, do you want a free trip to Victoria with one week's expenses paid? Then enter your name in the Didsbury Lions Club Jubilee Queen Contest, which is open to any lady, 18 years or over, who lives in Didsbury or district.

Candidates must be entered by 12 o'clock noon, July 9th, and entries can be left at C.E. Reiber's office.

Each candidate must sell votes at one cent each and the greatest number of votes will decide the winner.

Selling of votes will close noon, August 6th, and the winners will be declared at the big Lions Club Jubilee to be held at the fair grounds on August 7th.

Besides the free trip to Victoria, three other valuable prizes will be given to the first three runners up in the contest.

There is no limit to the number of entries in this year's contest. It is open to every eligible lady in town or district, so be sure and get your entry in early.

WESTCOTT W.I. TO HAVE AUCTION SALE, PROGRAM

The Westcott W.I. met at the home of Mrs. Alex Robertson on Thursday, June 26, with 13 members and three visitors present.

Meeting opened in the usual manner, after which Roll Call was answered by giving "A Helpful Hint."

Plans were made to hold an auction sale with a program in the near future.

The report of the W.I. conference, held in Didsbury last Monday, June 23, was given by Mrs. Cliff Eckstrand. This was followed by a short song.

Mrs. J. Robertson gave the report of the W.I. convention held the end of May in the Palisier Hotel, Calgary. Time would not permit this report being read at the last meeting owing to the entertaining of the grandmothers.

The Bit of Fun was taken by Mrs. Benson. After God Save The King and lunch, all started home on very slippery roads, the result of a heavy shower during the afternoon. No one went into the ditch, but the going was very slow and there were times when all had to help push, with the help of one lone man, and we arrived home a bit later than usual.

The next meeting will be held at the home of Mrs. MacFarlane on Thursday, July 31.

Ladies, don't forget the flower contest at the next meeting.

PLANTING OF SHELTER BELTS

The planting of shelter belts on farms is one of the most effective ways of curtailing soil drifting. Shelter belts also add beauty to the farmsteads and provide protection for gardens.

Seedling trees for shelter belts are available free of charge from the Dominion Nursery Station, Indian Head, Saskatchewan. The land whereon these seedlings are to be planted should be summer-fallowed a year in advance if you are interested, write to the Dominion Forest Nursery Station, Indian Head, for full particulars.

WORLD'S WETTEST SPOT IS ISLAND IN PACIFIC

The wettest spot on the earth is on the island of Kauai, one of the Hawaiian group. Around Mount Waialeale, 5,000 feet high, the average rainfall is one and one-half inches daily, according to the Hawaii Press Bureau.

Editorial

RAIN, RAIN — BEAUTIFUL RAIN

At one time the above caption may have been appropriate but with rain falling almost daily for the past six weeks, the people of this district are beginning to feel a little depressed with the lack of sunshine, and the prolonged wet spell.

Didsbury district is known as the area where there is plenty of rain for grain and grass crops, and this year is no exception. In fact local farmers now wonder if we will have enough warm weather to bring the grain to maturity, and a dry season to harvest the excellent hay crops which are now in prospect.

Experience has proven however, that the growing season in Western Canada cannot have too much moisture, and we probably should be thankful for the wet weather experienced this past month. While disagreeable, the rain should provide sufficient moisture for another bountiful harvest, and should the present crop be successfully harvested the proceeds therefrom will more than make up in pleasure, what we have sacrificed this past month due to excessive moisture.

WHY DO MEN WORK?

"Work or Want" is the new slogan which appears on British posters. It is an effort to rouse the nation to meet the crisis of underproduction. But will appealing to men's fears produce the work that is wanted? Is this the inspiration that will make men want to work?

"It is not true that men have lost their will to work," says Mr. Farrar Vickers, a British business man. "But we are trying to whip them to work by fear or lure them to work by greed. Fear and greed are obstacles which choke and blind, and set man against man and nation against nation. These obstacles are what we are trying to use as an incentive and it just won't work."

What will work? Why do men work?

Men work, and work best, says Mr. Vickers, not when you rouse their greed and fear, but when you free them from greed and fear. "Only free men give full production. Our common fight now, workers all of us, is the fight for freedom of spirit. The responsibility of industrial leadership is to free men at heart to give their best work, and then to make this gift available to meet the needs of the nation."

In the Vickers' plant, apparently, there are men who want to work. And the hopeful spectacle of men who want to work would seem to us more inspiring to workers everywhere than the grim spectacle of "Work or Want."

EASTERN FEED GRAIN PRODUCTION BELOW NORMAL

Eastern Canada's feed grain production is likely to be 45 per cent of normal this season. The federal minister of agriculture says at least 50 per cent more feed grain will have to be shipped from the prairies this year than last year.

Normal production of feed grain in the east is around 130 million bushels. It is calculated that pro-

duction this year will be around 60 million bushels. With a good crop the west can readily spare 70 million bushels of oats and barley, but transportation may create a problem, particularly in view of the need of shipping large quantities of wheat to Europe early in the season.

The devil may take the hindmost first but he is after the whole lot of us.

WEDDINGS

FOX—SNYDER

In the presence of a large number of relatives and friends the marriage of Anna Vieta, second youngest daughter of Mr. W.H. Snyder and the late Mrs. Snyder of Didsbury, and Mr. Charles Dale Fox, son of Mr. Elmer Fox and the late Mrs. Fox of Carstairs, was celebrated at the Mennonite Church in Didsbury on Tuesday, June 17, with Rev. D.C. Eby officiating.

The bride entered the church on the arm of her father to the strains of Lohengrin's Wedding March, played by Mr. Raymond Fox of Carstairs.

The bride looked lovely in a floor-length dress of ivory satin with full length veil held in place by a coronet of orange blossoms. She carried a bouquet of American Beauty roses and her only ornament was a necklace of pearls, the gift of the groom. Her matron of honor was her sister, Mrs. Eric Gooding, who wore a slipper-length dress of maize sheer and matching chapel veil, and carried a sheaf of pink carnations.

Misses Irene Farrell and Dorothy Fox (sister of the groom), were bridesmaids. They were gowned in floor-length dresses of pink sheer and turquoise blue net respectively and wore matching chapel veils. Each carried colonial bouquets.

Mr. Donald Fox attended his brother, and the ushers were Mr. Eric Gooding and Mr. Alton Snyder.

During the signing of the register Miss Shirley Snyder, niece of the groom, sang "Oh Promise Me."

The bridal group left the church to the strains of Mendelssohn's March. Following the ceremony a reception for some seventy guests was held at the home of Mr. and Mrs. Stanley Kelsey of Carstairs. The bride's table was centred with a three-tiered wedding cake, and pink and white streamers, vases of pansies and white bells completed the room decorations.

The couple were assisted in receiving the guests by Mrs. Stanley Kelsey and Mrs. Wilber Reider, sisters of the bride and groom respectively.

Those assisting in serving the lunch were the Misses Lois Krebs, Norma Cowitz, Helen Farrell, Vera Davies and Audrey Gooding. Mrs. C. Brado and Mrs. Jake Schellenburg cut the ices.

For travelling the bride chose a green dressmaker suit with black and white accessories, and wore a corsage of pink rosebuds. The happy couple left on a short honeymoon at Yellowstone Park, Montana, and on their return will reside on the groom's farm at Carstairs.

Out-of-town guests included Mr. and Mrs. Jack Gregory and family of Victoria, B.C., Mr. and Mrs. Oscar Snyder and family of Delburne and Mr. and Mrs. Harvey Wideman and family of Bergen.

A pint of milk weighs about one pound.

CANADA AND FARMERS LOSE U.S. DOLLARS

(By H.G.L. Strange)

Canada owes the United States a lot of American dollars, for Canada is buying more from the United States each year than Canada is selling to the United States, so the Canadian Government is trying to encourage increased exports to the States. An easy way for Canada to get more precious American dollars would be to remove the existing governmental prohibition against the exports of Canadian malting barley to the United States. In the last two years, because Canada has prohibited these exports, this country has lost 70 million American dollars, and our prairie farmers have lost in cold cash at least 50 million dollars. Why not re-open this international trade to the great benefit of all? Canada can easily grow sufficient additional feed barley for her hogs by means of using just over one million acres of the existing 18 million acres of idle summerfallow, (a fair amount of which summerfallow, in my humble opinion, is quite unnecessary.) To allow at once the export of Canadian malting barley to the United States is something the Canadian Government can do and should do to the great benefit of all. Americans want our barley. We have it. Why not sell it to them? This trade took years to build up. If we don't ship our barley the Americans will surely start to grow their own.

FROZEN FOOD

The length of time a product may be stored in a freezer without loss of quality is determined by temperature. Best results, advise the refrigerator authorities, are obtained by storing at zero to 5 degrees F. above. There is no particular advantage, they say, in storing at below zero. Micro-organisms dangerous to health will not grow below 14 degrees F., and botulism toxin has not been known to develop below 40 degrees F. Pork, fish, ground meat, and cut poultry keep longer if packed in tough, moisture-resistant material.

A swashbuckling hockey team from the Yukon were defeated by the Ottawa Silver Seven in a Stanley Cup affair in 1905, the highest scoring game, 23 to 2.

CURRENT EXPORTS THREE TIMES 1938 VOLUME

Latest figures tabulated by the Dominion Bureau of Statistics reveal that total Canadian exports for the four month period from January to April of this year amount to \$788,000,000, as compared with \$254,000,000 during the same period of 1938.

Wood, wood products and paper led the way, with a total of over \$260 million, while agricultural and vegetable products accounted for \$179½ million. Other products in which increases over last year were noted are iron and iron products, non-ferrous metals, non-metallic minerals, and chemicals and allied products. A decrease from 1946 totals was noted in animals and animal products, fibres and textiles, and miscellaneous commodities. In every classification, however, the totals were several times greater than for the comparable period in 1938.

CANADIAN TRADE EXHIBIT INTERESTS FOREIGN BUYERS

Two hundred specific enquiries for Canadian commodities were listed by Canadian Trade Commissioners attending the British Industries Fair in London, England. A larger number of foreign buyers visited the Canadian Exhibit than on any previous occasion, and many additional requests for information were received from buyers representing 90 different countries. As a result, the Department of Trade and Commerce has established valuable contracts, available to Canadian business men, with foreign traders interested in both exporting and importing.

NEWFOUNDLAND CODFISH EXPORTERS FAVOUR CO-OP MARKETING

The Newfoundland Salt Codfish Association has recommended to the Newfoundland Government that returns from exports of all salt codfish be pooled and averaged. It is believed that this new scheme, which would continue the marketing arrangements in force under the Combined Food Board and later the International Emergency Food Council, would help prevent any serious price fluctuations following the expiry of the international marketing system this month.

It Pays to Read the Ads!

VALUE OF GREEN GRASS

Investigations at the Range Experimental Station, Manyberries, Alberta, have shown that growing cattle make daily gains of two to three pounds per head during the spring and early summer when the grass is green. The grass contains a high percentage of protein which rapidly diminishes as the range matures and reaches in the cured state. This change in the composition of range feed results in a corresponding change in the gains made by cattle. By early September, daily gains are reduced to less than one pound per day, with a further reduction until cattle may only hold their weight in the late fall months.

HUSKY GRASS

One valuable characteristic of crested wheat grass in the Prairie Provinces is its ability to grow among—and eventually crowd out—stands of prairie sage and other pasture weeds.

THE FEAR OF DROUGHT

The United States Department of Agriculture has issued a warning to American farmers that destructive droughts and dust storms sooner or later are bound to return to the Great Plains area. The Department suggests that farmers should try to get ready for the next drought. Research work on longtime rainfall in Canada reveals that during the past 60 years there have been several periods of drought and also several periods of very good rainfall. But there is no rhythm in the pattern of the occurrence of these periods, and prairie records reveal, as the U.S. Department of Agriculture says, that another drought may come at any time.

This, however, is nothing new. Chinese agriculture has had to contend with severe drought for thousands of years. In ancient times one Chinese authority said that there was but one way for farmers to prepare for periods of drought, which was that in times of good crops and of good prices farmers should put by reserves of seed and feed, and reserves of cash, so that they could tide over the bad times of drought or low prices when they came along. It appears to me that advice is about as sound today as it was when given to Chinese farmers thousands of years ago.

BUD SNIPPER

The strawberry weevil is a dark brown beetle about one-eighth of an inch long. It has a long curved snout with which it cuts off the unopened blossom buds of strawberries and raspberries, so that they fall to the ground or are left hanging.

IMPORTANT FACTORS IN INSECT STUDY

"In the study of forest insects and their control there is much more involved than merely the study of insects. The study of these alone, without reference to other factors in their environment, will not give much insight into the role of insects in the forest or the factors which tend to increase or decrease their numbers. Rather, forests must be regarded as plant and animal communities and an attempt made to evaluate and understand all of the interrelationships of the organisms which live within such communities", G. R. Hopping, Division of Entomology, Science Service, Dominion Department of Agriculture, told the members of the National Parks Wardens Convention in a recent address on forest insects control.

On the one hand, he said, there is the plant association made up of the various tree species, shrubs, and smaller plants. On the other hand, there is the animal community consisting of insects and near relatives of insects, game animals, fur bearers, predators, and birds. All of these are closely inter-related and the disappearance of one factor may mean the dislocation and sometimes the disappearance of a whole series of organisms.

One may well ask what relationships exist between a bark-beetle, for instance, and fur bearer and game animals. Take Kootenay Park as an example. From 85 to 90 per cent of the lodgepole pine has been killed over large areas in this park by the mountain pine bark-beetle. This relatively sudden change in the character of the forest has perhaps deprived much of the squirrel population of its natural food. This in turn, deprives certain predators in the birds and fur bearers of their food, and they move out. The species of game animals which prefer denser types of forest also move out. Eventually, dead trees fall, making a great tangle of debris with consequent great fire hazard.

Perhaps a huge fire sweeps the park. In place of dense forest there is, at least for a time, bare hills. The fur bearers and the game animals are gone, and the character of the birds and insect populations has changed. Then there is the change in the behaviour of the tourist. Where he used to tarry at the various camps, fishing and enjoying the scenery, he would travel as fast as his car would take him, intent on getting through that desolate strip as soon as possible to more pleasant surroundings.

In 100 years another forest may have covered the desolation, but man cannot wait for 100 years. That is why when the bark-beetle threatened the Bow Valley in the Banff region, that entomologists were in a hurry to do something about it.

We need more than an answer to our problems. We need a whole new way of life in which these problems don't occur.

Never Before Value Like This BIG-CAR QUALITY at low cost—found only in Chevrolet

The 1947 Chevrolet offers the finest motor car quality at a real saving in money. It's the only car giving Big-Car Quality at Low Cost! It brings all the following Big-Car advantages at lowest prices and with low cost of operation and upkeep.

The Big-Car styling of a large, luxurious Body by Fisher—found only in Chevrolet and higher-priced cars.

The Big-Car performance and dependability of a mighty Valve-in-Head Engine.

The Big-Car comfort of the Utilized Knee-Action Gliding Ride—both of which are likewise found only in Chevrolet and higher-priced cars!

The Big-Car Safety of Fisher Unisteel Body construction and Positive-Action Hydraulic Brakes—combined only in Chevrolet and higher-priced cars!

The growing demand for the New Chevrolet is setting an all-time record. We cannot hope for many months to fill all the orders pouring in. If you are among the many who have set your sights on Chevrolet's Big-Car Quality at Low Cost, we suggest that while you wait, you rely on your Chevrolet Dealer's service to keep your present car running smoothly and safely.

**WARN FARMERS AGAINST
ROTARY TILLERS**

Rotary tillage machines are again making their appearance in this province and farmers will save themselves a great deal of trouble and loss if they take warning now. Two years ago rotary tillage machines were brought into the Camrose district. Considerable publicity was given by the Alberta Department of Agriculture at that time to the fact that these machines are very destructive of soil fibre and encourage soil drifting and water erosion.

H.J. Mather, Supervisor of Soil Conservation and Weed Control, has received advice that a similar type of machine is now being demonstrated in the Vermilion and Edmonton districts. "We can't stress too strongly," says Mr. Mather, "that rotary tillage machinery is not suitable for Alberta conditions. These implements grind up the soil through their rotary action and promote heavy soil losses."

Farmers are advised to ignore exaggerated claims as to the efficiency of these implements, and to invest their money in machinery better suited to the soil and climatic conditions of this province.

**HIGHER PRICES AT SOUTHERN
RHODESIA TOBACCO AUCTIONS**

Prices for flue-cured tobacco averaged 25% above last years figures at the recent opening of the tobacco auction sales in Southern Rhodesia. Peak was reached during first three days at 57 pence (approx. 95¢ per pound, later settling to an average of 48.45 pence (approx. 81¢), although with a strong market there was an indication that prices would remain high. While it is expected that the new United Kingdom taxes on tobacco will reduce tobacco consumption and ultimately reduce imports, it was not considered that Southern Rhodesia producers would feel the effects of this for some time.

There is no situation which could be "a lot worse" but which could also be a lot better.

It's not more plans we need but more application of the plans we have.

"Time marches on" so fast that it's later than we think.

THE POET'S CORNER**The Monkey's Viewpoint**

Three monkeys sat in a coconut tree, Discussing things as they're said to be. Said one to the other: "Now listen, you two—

There's a certain rumor that can't be true. That man descended from our noble race.

Why, the very idea! It's a dire disgrace! No monkey ever deserted his wife Starved her baby or ruined her life. And you've never known a mother monk!

To leave her young with others to bunk

Till they scarcely knew their mother.

And another thing you'll never see—

A monk build a fence around a coconut tree. For biding all other monks' a taste. Why if I built a fence around this tree

Starvation would force you to steal from me.

Here's another thing a monk won't do—

Go out at night and get on a stew Or use a gun, or a club, or knife To take some other monkey's life.

Yes, man descended, the ornery cuss

WHEAT FLOUR

Wheat used in the manufacture of flour during the first nine months of the present crop year, which ends July 31, 1947, amounted to 94,365,628 bushels as against 87,557,288 bushels in the corresponding nine months of the 1945-46 crop year. Production of flour for the first nine months of the present crop year amounted to 21,131,119 barrels, compared with 19,743,721 barrels a year ago.

**DIRECT PARCEL POST TO
FRANCE RESUMED**

Direct parcel post service from Canada to France has been resumed and parcels up to a weight limit of 20 pounds may now be sent. Parcels may be despatched via direct steamship, as well as via the United Kingdom, subject to the conditions at present in effect for parcels to France.

**NEW FORMS REQUIRED
FOR COYOTE BOUNTIES**

Alberta lands minister state that trappers, farmers and hunters claiming coyote bounties, announced last week, will have to fill out an official form and send it to Royal Canadian Mounted Police, game or forestry officers, or a commissioner of cattle.

Mr. Tanner said the bounty will be paid direct from Edmonton. A bounty of \$5 will be paid on each animal taken between May 1 and Sept. 30, and \$3 on each animal taken between Oct. 1 and April 30.

SmartnessA product of
General Motors

FOLKS EVERYWHERE are singing the praises of the smart new Oldsmobile car. Style alone would make it the smart buy of the year! Long, flowing lines, tasteful trim, beautifully tailored interiors . . . all combine to give this car a smooth-as-a-melody, "new-as-tomorrow" look. And when you consider that the new Oldsmobile is the lowest-priced car to offer GM Hydra-Matic Drive*, the General Motors drive—that makes Oldsmobile a smart choice automatically. For Hydra-Matic Drive* is the only fully proved, fully automatic drive. The only drive that shifts gears through four forward speeds without any effort whatsoever on your part. The only drive that eliminates the clutch pedal entirely! . . . Just forget the clutch and gear . . . all you do is sit and steer! No wonder so many smart people say "It's SMART to own an Olds."

*Hydra-Matic Drive, optional at extra cost.

KEEP YOUR CAR "IN TUNE"

To you who are waiting for your new Oldsmobile—our thanks for your patience . . . our tribute to your wisdom. The demand for Oldsmobile with the new GM Hydra-Matic Drive* is so widespread that it still greatly exceeds the supply. Make sure your present car carries you conveniently and safely through the waiting period by having it serviced regularly by your Oldsmobile dealer.

WHO DOES YOUR PRINTING ?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them.

Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

When In Need of Printed Matter Consult

-: DISTRICT NEWS -:

BURNSIDE NEWS NOTES

Walter McCulloch is drilling a well at his farm home.

Jack Underhies was seen hauling a load of poles and getting ready to instal a telephone.

Mary Page, 7 year old daughter of Mr. and Mrs. E. Page, fell from her horse on her way home from school last Tuesday, breaking both arms. After receiving treatment in the Didsbury hospital her arms were put in plaster casts, and she is now back home.

Mr. and Mrs. J.C. McCulloch entertained at their home on Sunday in honor of Mrs. McCulloch's aunt, Mrs. Bert Richardson, who is visiting from Port Alberni, B.C.

Mr. and Mrs. Ivor Weber were Calgary visitors last Tuesday.

Mrs. Dennis Jenkins is staying in town this week with her father-in-law while Mrs. Arthur Jenkins is visiting in Calgary with her daughter, Mrs. Tom Noble.

A large crowd attended the wedding dance at Lone Pine hall last Wednesday in honor of the newlyweds, Mr. and Mrs. Frank Moon. Everyone had a very enjoyable time.

Mr. and Mrs. W. Lyons and Howard, Mr. and Mrs. C. Nelson and family, and Mr. Hugh McLean were dinner guests last Sunday with Mrs. Helen Birdale at the Sam McAllister home.

The Martz boys of Allingham overturned their car on the way to the dance at Lone Pine. With the help of Dick Metz' tractor the car was righted and the boys continued on their way.

MOON—EHRET

A pretty wedding was solemnized at Knox United Church, Didsbury, on Wednesday, June 25th at 3 p.m. when Esther Magdeline, only daughter of Mr. and Mrs. Chris Ehret of Didsbury, became the bride of Mr. Francis Moon, son of Mr. Wm. Moon, also of Didsbury. The ceremony was performed by Rev. D. Whyte Smith.

The bride, who was given in marriage by her father, was dressed in a floor-length gown of white nylon with long sleeves and a sweetheart neckline, and her long veil was held in place by a wreath of orange blossoms. She wore white sandals and carried a bouquet of red sweetheart roses. Her only ornament was a three-strand pearl necklace, the gift of the groom.

The matron-of-honor, Mrs. Orville Snyder, wore a floor-length gown of pink jersey net with short sleeves and short veil held in place by a coronet of pink roses, and she carried a bouquet of white carnations. Her only ornament was a gold locket and car rings, the gift of the bride.

The bridesmaid was Miss Maxine Wood, who wore a floor-length dress of blue silk taffeta net with short veil and a coronet of blue roses. She carried a bouquet of pink carnations and wore a gold locket and car rings, the gift of the bride.

The groom was attended by his brother, W. Moon, and Orville Snyder.

Ushers were Kenneth Esler and Elmer Ehret.

Mrs. Ehret, the bride's mother, wore a gown of turquoise blue with hat to match, white gloves, and carried a corsage of pink carnations. The Lohengrin Wedding March was played by Mrs. Arnold Sherrick and during the signing of the register Mr. Arnold Sherrick sang "At Dawning."

Following the ceremony a reception was held at the home of Mr. and Mrs. Neil Gill, with 100 guests attending, all relatives of the bride with the exception of Mr. Moyle, Mrs. Moyle, Mrs. Mardon, Chas. Mardon Jr., Mr. and Mrs. Arnold Sherrick, Miss Ethel Broadhurst and Mr. and Mrs. J. Shannon.

The reception room was tastefully decorated with pink and white streamers and silver bells, and the bride's table was centred with a three-tiered wedding cake banked with multi-colored flowers. Mr. John Shannon proposed the toast to the bride.

Mr. and Mrs. Moon later left on a honeymoon trip to Calgary and Banff.

WEED KILLING

Shallow tillage is more efficient in controlling weeds than is deep tillage. It is the weed seeds in the upper two or three inch layer of soil which cause major weed problems in grain production. Shallow tillage makes it possible to germinate weed seeds and to destroy seedlings in greater numbers in a given period and at lower cost than is possible with deep tillage.

NOTES FROM THE EAST

(Week of June 23)

Note to the Lone Pine W.I. ladies—Owing to the Didsbury Fair falling on our usual meeting date, the July meeting will be held at the home of Mrs. Alfe Thompson on Friday, July 18th.

The Hunt Cliff school held their annual picnic on their grounds on Friday, June 20. The usual races, ball games and other sports were run off, and those who attended enjoyed plenty of treats. Visitors from the Jutland district included Mr. and Mrs. H. Sheils, and Mr. and Mrs. B. Sheils and family.

Leonard Tabert of Bowden visited at the home of Arnold McCulloch last Sunday. Leonard and Arnold attended Calgary Tech together, and at present the former is doing carpenter work for W.H. Coates.

Miss Muriel Hayne supervised a children's program at the Jutland school last Sunday and those who attended remarked on the splendid performances of the pupils. Miss Hayne is to be congratulated on her handling of the children.

(Week of June 30)

Don't forget the old timers' picnic, to be held at Lone Pine hall on July 4th. Everybody is invited to bring a basket and join in the picnic dinner. Come and enjoy the sports, ball games and dance in the evening.

Mr. and Mrs. Lloyd Hayne have moved to their farm on the north road, formerly known as the Stanley Kelsey farm. It will be quite pleasant for the neighbors to see the place take on that "lived in" look again.

Gordon Coates spent the week holidaying with his grandparents.

Mr. and Mrs. H. Sheils and son motored to Landline to visit with Mrs. Sheils' parents, and also with relatives from the States.

TO MAKE GOOD HAY

If you want good quality hay cut it at the right time. That is the advice of J.E. Birdsall, Supervisor of Crop Improvement for the Alberta Department of Agriculture. As grasses and legumes mature the quantity of forage increases but the quality decreases. In other words the percentage of protein decreases with maturity and the proportion of fibre increases.

In making hay the idea is to cut early enough to get high quality, but late enough to get a reasonable bulk. As a rule hay is cut too late for best results. Alfalfa should be cut from one-tenth to one-half in bloom and the clovers when one-half to three-quarters in bloom. Grasses such as brome, timothy and crested wheat should be cut shortly after heading. Grasses and legumes are usually grown in mixtures for hay. A mixture should be cut when the legume is at the best stage for hay making.

Some farmers may object to early cutting because of difficulty in curing. Much of this can be overcome by seeding grasses with legumes and by obtaining good equipment for rapid handling of hay. The side-delivery rake is one of the most valuable machines for this purpose. Other machinery required will depend on the acreage to be handled.

10 PER CENT OFF ALL D.D.T. PRODUCTS

—C.F. Donner is putting on a recital of his piano pupils at the Evangelical Church on Thursday, July 3, at 8 p.m. A silver collection will be taken, the surplus of which will go to the Red Cross.

Mrs. W.K. Nelson and Billy of Calgary were week end visitors with Mr. and Mrs. Erven Rodney and Jimmy Nelson. Jimmy was injured two weeks ago at the ball game at Westdale, and he is now home from the hospital.

Mr. J.T. Stiles of Louisville, Kentucky is visiting his brother, W.E. Stiles.

Mr. and Mrs. Prichard were recent guests at the home of the latter's parents, Mr. and Mrs. M.R. Stanton of Harman.

Mr. and Mrs. Howard Halliday and Pat attended the Happy Gang program in Calgary last Wednesday.

Mrs. E. Pearson and Tom spent Sunday in Calgary.

Mr. and Mrs. M. Shaw left by car on Saturday for a holiday in British Columbia, and will visit with their son and family at Vernon.

LOCAL NEWS

Mrs. E. Pearson received word last week that her granddaughter, Primrose Hislop of Riverside, California, had undergone a serious operation, but that she is now progressing favorably.

Kenneth Nelson is spending the holidays with his grandmother in Calgary, and Noreen is visiting with her uncle and aunt, Mr. and Mrs. E.M. Rodney.

Robert McInnes, 79, a former resident of Didsbury district from 1923 to 1937 and brother of A.L. McInnes, died Thursday in Calgary, and funeral services were held in Jacques' Chapel on Saturday, June 28th.

E.T. Wiggins, principal of Didsbury school, left Sunday for Edmonton where he will attend summer school.

When last heard from Mr. and Mrs. Garnet Tighe, who are on a motor trip via the States to Eastern Canada, had arrived at Sault Ste. Marie, Mich., and are having a grand trip.

Considerable building activity is again under way in Didsbury. Tom Morris is building an addition to his house; Mountain View Bible School has commenced construction of a large auditorium; and Dr. Patterson is having an addition made to his recently acquired house.

Knox United Junior W.A. held a picnic at the Butte last Monday for members and their families.

Mrs. E.T. Wiggins, Beverley, Lorna and Donna left Saturday with Mr. and Mrs. Laurence Ferguson and will motor to Vernon, B.C., where they will spend the month of July.

Chris Flanagan, former teacher of the Didsbury school and for the past year shop teacher at Didsbury and Olds, has accepted a position in the vocational department of the new Red Deer School Division, and will take over his new duties Sept. 1st. Mr. and Mrs. Flanagan will reside in Red Deer and leave for the northern city in August.

Donald and Gordon Stiles left Friday for Peachland, B.C., where they will pick cherries for a couple of weeks.

Nubone Foundation Garments for style, comfort, health. Will have sizes ranging from 34 to 52 bust on hand first week of August, but will take orders anytime. Mrs. Dickau, phone 59, Didsbury. 27-3p

Owing to the July 1st holiday falling on Tuesday, and Wednesday being declared a holiday in Didsbury, this issue of "The Didsbury Pioneer" was printed Monday night. News arriving too late for this edition will be published next week.

Miss Winona Rouleau left Tuesday to spend the summer with her aunt at Kamloops, B.C.

Vance Shields left Sunday to spend a few days at Lake MacGregor.

E.G. Ranton left Saturday to spend his annual holiday in Edmonton and district.

Miss Audrey Innes of Calgary is a Didsbury visitor this week.

Ranton's

J.V. BERSCHT & SONS
Shoes and Clothing
PHONE 36 DIDSBURY, ALTA

Jean Fletcher and Trev Evans were lucky winners in the Lions Club Clock Guessing Contest sponsored by the Caribon Lions Club, each winning a consolation prize of \$1.00.

Miss Betty Klinck, who has been teaching school at Rochester, Alberta since the beginning of May, returned to her home Sunday.

Mr. and Mrs. M. Shaw are back home after spending a week end with Mrs. Shaw's uncle and cousins at Vulcan.

The mailing list of the Didsbury Pioneer was brought up to date this week and if you have paid your subscription and the date on the label on your paper has not been changed, please notify us immediately.

If the date on the label shows that your paper is in arrears, kindly pay up as soon as possible.

Mr. and Mrs. J.E. Devolin, who have resided in the Didsbury district since 1916, moved to Calgary on Friday, June 27th, and in future will make their home in that city.
